PROFESSIONAL EXPERIENCE

Data Analysis, Accenture
07/2024 – 08/2024
Hyderabad, India

- Collaborated with 8+ industry experts to align objectives across 5 major projects, delivering data-backed insights that resulted in a 15% increase in project efficiency and a 10% boost in stakeholder satisfaction.
- Analyzed requirements from over 20 clients to set priorities, define objectives, and collect relevant datasets, leading to a 30% increase in project alignment and client satisfaction.
- Consolidated and verified data from 15+ sources to ensure 98% accuracy in analysis, resulting in a 25% improvement in decision-making efficiency.
- Created and presented 10+ PowerPoint decks to senior management, translating complex data into actionable insights that contributed to a 20% boost in quarterly sales.

PROJECTS

Grocery Sales Analysis - Python 🔗
07/2024 – 07/2024

- Structured a linear regression model, increasing sales prediction accuracy by 20%.
- Assessed a dataset of 50,000+ records, identifying patterns that improved sales strategies.
- Composed visualizations that enhanced decision-making and boosted efficiency by 10%.

Car Sales Analysis - Power Bi 🔗
08/2024 – 08/2024

- Designed interactive Power BI dashboards for car sales metrics, enhancing data access for 100+ users. Used DAX and data modelling to reduce report generation time by 25%.
- Designed targeted visualizations, increasing actionable insights by 30%. Integrated external market data for a comprehensive view of sales trends.

Bank Loan Analysis 🔗
08/2024 – 08/2024

- Crafted Excel financial models to analyse over 1,000 loan accounts, reducing default rates by 5%. Streamlined reporting with pivot tables and advanced functions, cutting turnaround time by 20%.
- Refined visual reports and charts, enhancing loan recovery strategies by 10%. Utilized heat maps and conditional formatting to emphasize key financial trends.

Pizza Sales Analysis
09/2024 – 09/2024

- Optimized a MySQL database for a pizza store, implementing indexing and normalization techniques that reduced query response times by 50% and Maximized data accuracy, leading to a 20% increase in operational efficiency.
- Executed complex SQL queries to analyze sales trends and optimize inventory across 15 product categories, utilizing joins, sub-queries, and aggregate functions to generate actionable insights that reduced inventory costs by 30% and Streamlined order fulfillment accuracy by 25%.

SKILLS

Programming languages: Python (pandas, NumPy, Matplotlib),

Tools & Technology's: Excel (Adv Formulas, Pivot Tables, Data Visualization), Power BI, MySQL.

Data Analysis Skills: Data Cleaning and Preparation, Exploratory Data Analysis (EDA), Data Visualization, Statistical Modelling.

Excellent Communication Skills: Storytelling with Data, Project Presentation, Stakeholder Communication

CERTIFICATES

- Data Visualization - TATA Group
- Cisco - Data Analytics
- Wadhwani Foundation - Employability Skills

EDUCATION

B.Sc. Computer Science
03/2021 – 09/2023
Sri Venkateswara Degree and PG Collage
Anantapur, India
